

## Early Years Mental Maths Toolkit - Part 2

Name: \_\_\_\_\_

<b>Target</b>	<b>Child</b>	<b>Parent</b>	<b>Teacher</b>
I can count out loud from 0 to 20			
I can count out loud from any given number to 20 e.g. 7 to 20			
I can count out loud from 10 to 0			
I can count out loud from 20 to 0			
I can count out loud (backwards) from any given number to 0 (within 20)			
I can instantly recall the number that is 1 more than any number within the range 0-10			
I can instantly recall the number that is 1 less than any number within the range 0-10			
I can explain what the words 'more' and 'less' mean			
I can make odd and even numbers up to 10 using resources e.g. pasta, buttons, Lego			
I can instantly recall whether a number is odd or even within 0-10			
I can explain why a number is odd or even e.g. it cannot be shared into 2, one doesn't have a partner			

Once you have mastered one of the targets tick the box next to it. Then get your adult to test you and they can tick and date it too, to show they agree. When you have finished please return to school for your teacher to check. Thank you.
